## MOMENTS 2 MARK

SCHEMES

\begin{tabular}{|c|c|c|c|}
\hline \multicolumn{4}{|l|}{Question 1} \\
\hline question \& answers \& extra information \& mark \\
\hline a \& 51.2 \& allow \(\mathbf{1}\) mark for correct substitution, ie \(64 \times 0.8\) provided no subsequent step shown \& 2 \\
\hline (b) \& it increases (the moment) \& \begin{tabular}{l}
must be comparative \\
accept \(\mathbf{1}\) mark for calculation of the moment \(=64(\mathrm{Nm})\)
\end{tabular} \& 1 \\
\hline Total \& \& \& 3 \\
\hline \multicolumn{4}{|l|}{Question 2} \\
\hline (a) \& 60 \& \begin{tabular}{l}
allow 1 mark for correct substitution (with d in metres), ie
\[
36=F \times 0.6
\] \\
an answer of 0.6 or 6 gains 1 mark
\end{tabular} \& 2 \\
\hline (b) \& \begin{tabular}{l}
the line of action of the weight lies outside the base / bottom (of the bag) \\
a resultant / overall / unbalanced moment acts (on the bag)
\end{tabular} \& \begin{tabular}{l}
accept line of action of the weight acts through the side \\
accept the weight (of the bag) acts outside the base / bottom (of the bag) \\
accept the bag is not in equilibrium \\
do not accept the bag is unbalanced
\end{tabular} \& 1

1 <br>
\hline
\end{tabular}

\begin{tabular}{|c|c|c|c|}
\hline \& \& \& \\
\hline (c) \& \begin{tabular}{l}
\[
0.0625
\] \\
hertz / Hz
\end{tabular} \& \begin{tabular}{l}
allow 1 mark for correct substitution, ie
\[
16=-\frac{1}{f}
\] \\
an answer of 0.00625 gains 1 mark \\
do not accept HZ or hz
\end{tabular} \& 2

1 <br>
\hline Total \& \& \& 7 <br>
\hline \multicolumn{4}{|l|}{Question 3} <br>
\hline (a) \& 3000 \& allow 1 mark for correct substitution, ie $600 \times 5$ provided no subsequent step \& 2 <br>
\hline (b) \& anticlockwise moment \& must be both words \& 1 <br>
\hline (c)(i) \& 3400 \& allow 3.4 kilo (newtons) \& 1 <br>
\hline (c)(ii) \& as the distance (of the girl from point A) increases, force $F$ increases \& allow gets bigger for increases force is (directly) proportional to distance will negate any correct response \& 1 <br>
\hline Total \& \& \& 5 <br>
\hline \multicolumn{4}{|l|}{Question 4} <br>
\hline (a) \& turning \& \& <br>
\hline (b) \& 420 \& \& 2 <br>
\hline
\end{tabular}

$\left.\begin{array}{|c|l|l|c|}\hline & & \begin{array}{l}\text { allow } 1 \text { mark for correct substitution, } \\ \text { ie } 1400 \times 0.30 \text { provided no subsequent } \\ \text { step shown }\end{array} & \\ \hline \text { (c) } & \text { A } & \text { reason only scores if A is chosen } & 1 \\ \hline \text { any one correct reason: } & & \begin{array}{l}\text { accept distance (from the pivot) is the } \\ \text { greatest } \\ \text { accept it is further away (from the } \\ \text { pivot) }\end{array} & 1 \\ \text { The furthest away (from the pivot }\end{array}\right\}$
