## Pearson Edexcel

Mark Scheme (Results)

November 2018

Pearson Edexcel GCSE (9-1)
In Mathematics (1MA1)
Foundation (Calculator) Paper 3F

## Edexcel and BTEC Qualifications

Edexcel and BTEC qualifications are awarded by Pearson, the UK's largest awarding body. We provide a wide range of qualifications including academic, vocational, occupational and specific programmes for employers. For further information visit our qualifications websites at www.edexcel.com or www.btec.co.uk. Alternatively, you can get in touch with us using the details on our contact us page at www.edexcel.com/contactus.

## Pearson: helping people progress, everywhere

Pearson aspires to be the world's leading learning company. Our aim is to help everyone progress in their lives through education. We believe in every kind of learning, for all kinds of people, wherever they are in the world. We've been involved in education for over 150 years, and by working across 70 countries, in 100 languages, we have built an international reputation for our commitment to high standards and raising achievement through innovation in education. Find out more about how we can help you and your students at: www. pearson.com/uk

## General marking guidance

These notes offer general guidance, but the specific notes for examiners appertaining to individual questions take precedence.
1 All candidates must receive the same treatment. Examiners must mark the last candidate in exactly the same way as they mark the first.
Where some judgement is required, mark schemes will provide the principles by which marks will be awarded; exemplification/indicative content will not be exhaustive. When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the response should be sent to review.

2 All the marks on the mark scheme are designed to be awarded; mark schemes should be applied positively. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme. If there is a wrong answer (or no answer) indicated on the answer line always check the working in the body of the script (and on any diagrams), and award any marks appropriate from the mark scheme.

Questions where working is not required: In general, the correct answer should be given full marks.
Questions that specifically require working: In general, candidates who do not show working on this type of question will get no marks - full details will be given in the mark scheme for each individual question.

## 3 Crossed out work

This should be marked unless the candidate has replaced it with an alternative response.

4 Choice of method
If there is a choice of methods shown, mark the method that leads to the answer given on the answer line.
If no answer appears on the answer line, mark both methods then award the lower number of marks.
5 Incorrect method
If it is clear from the working that the "correct" answer has been obtained from incorrect working, award 0 marks. Send the response to review for your Team Leader to check.

6 Follow through marks
Follow through marks which involve a single stage calculation can be awarded without working as you can check the answer, but if ambiguous do not award.
Follow through marks which involve more than one stage of calculation can only be awarded on sight of the relevant working, even if it appears obvious that there is only one way you could get the answer given.

## 7 I gnoring subsequent work

It is appropriate to ignore subsequent work when the additional work does not change the answer in a way that is inappropriate for the question or its context. (eg. an incorrectly cancelled fraction when the unsimplified fraction would gain full marks).
It is not appropriate to ignore subsequent work when the additional work essentially makes the answer incorrect (eg. incorrect algebraic simplification).

8 Probability
Probability answers must be given as a fraction, percentage or decimal. If a candidate gives a decimal equivalent to a probability, this should be written to at least 2 decimal places (unless tenths)
Incorrect notation should lose the accuracy marks, but be awarded any implied method marks.
If a probability fraction is given then cancelled incorrectly, ignore the incorrectly cancelled answer.
9 Linear equations
Unless indicated otherwise in the mark scheme, full marks can be gained if the solution alone is given on the answer line, or otherwise unambiguously identified in working (without contradiction elsewhere). Where the correct solution only is shown substituted, but not identified as the solution, the accuracy mark is lost but any method marks can be awarded (embedded answers).

## 10 Range of answers

Unless otherwise stated, when an answer is given as a range (e.g 3.5-4.2) then this is inclusive of the end points (e.g 3.5, 4.2) and all numbers within the range.

## 11 Number in brackets after a calculation

Where there is a number in brackets after a calculation E.g. $2 \times 6$ ( $=12$ ) then the mark can be awarded either for the correct method, implied by the calculation or for the correct answer to the calculation.

12 Use of inverted commas
Some numbers in the mark scheme will appear inside inverted commas E.g. " 12 " $\times 50$; the number in inverted commas cannot be any number - it must come from a correct method or process but the candidate may make an arithmetic error in their working.

## 13 Word in square brackets

Where a word is used in square brackets E.g. [area] $\times 1.5$ : the value used for [area] does not have to come from a correct method or process but is the value that the candidate believes is the area. If there are any constraints on the value that can be used, details will be given in the mark scheme.

## Misread

If a candidate misreads a number from the question. Eg. uses 252 instead of 255; method or process marks may be awarded provided the question has not been simplified. Examiners should send any instance of a suspected misread to review.

## Guidance on the use of abbreviations within this mark scheme

M method mark awarded for a correct method or partial method
$\mathbf{P} \quad$ process mark awarded for a correct process as part of a problem solving question
A accuracy mark (awarded after a correct method or process; if no method or process is seen then full marks for the question are implied but see individual mark schemes for more details)

C communication mark awarded for a fully correct statement(s) with no contradiction or ambiguity
B unconditional accuracy mark (no method needed)
oe or equivalent
cao correct answer only
ft follow through (when appropriate as per mark scheme)
sc special case
dep dependent (on a previous mark)
indep independent
awrt answer which rounds to
isw ignore subsequent working

| Paper: 1MA1/3F |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Question | Answer | Mark | Mark scheme | Additional guidance |
| (i) <br> (ii) | $\begin{gathered} 43.7 \\ \frac{5}{7} \end{gathered}$ | B1 <br> B1 | cao $\frac{5}{7} \text { oe }$ | Accept any other equivalent fraction to $\frac{5}{7}$ |
| 2 | $\frac{3}{100}$ | B1 | cao |  |
| 3 | 1.2 | B1 | oe | Accept $\frac{12}{10}$ or $\frac{6}{5}$ |
| 4 | 90 | B1 | cao |  |
| 5 (a) <br> (b) | Cuboid <br> 12 | $\begin{aligned} & \text { B1 } \\ & \text { B1 } \end{aligned}$ | cao |  |
| $6$ <br> (b) | $\begin{gather*} \text { Cross at } \frac{1}{2}  \tag{a}\\ \frac{2}{6} \end{gather*}$ | $\begin{aligned} & \hline \text { B1 } \\ & \text { B1 } \end{aligned}$ | cross at $\frac{1}{2}$ $\frac{2}{6} \mathrm{oe}$ | Accept any other marks near to $1 / 2$ if the intention is clear; do not accept if any other marks are shown. <br> Acceptable equivalents are equivalent fractions to $\frac{2}{6}$ eg $\frac{1}{3}$ decimal $0.33(\ldots)$ or \(33(.) <br> ). |
| 7 | 1.94 m or 194 cm | $\begin{aligned} & \text { M1 } \\ & \text { A1 } \end{aligned}$ | for 188 or 0.06 or 194 or 1.94 1.94 m or 194 cm | Do not accept numerical answers without the correct unit shown. |

| Paper: 1MA1/3F |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Question | Answer | Mark | Mark scheme | Additional guidance |
| 12 | Correct pie chart |  | for method to find at least one angle eg P: $360 \div 60 \times 24(=144)$ or $\mathrm{C}: 360 \div 60 \times 16(=96)$ or M: $360 \div 60 \times 20(=120)$ | Use the overlay <br> Working may be seen in or by the table |
|  |  | $\mathrm{A} 1$ | for all 3 angles correctly calculated OR at least one accurately drawn angle | If three equal sectors of $120^{\circ}$ with no working award 0 marks |
|  |  | A1 | fully a correct labelled pie chart | Labels as "vegetables" from table not just angle size. Accept P, C, M |
| 13 | 50 |  | for $45 \times 1.2(=54)$ or $34 \times 1.5(=51)$ |  |
|  |  | P1 | for 150 - " $54 "$ - " $51 "(=45)$ |  |
|  |  | P1 | for " 45 " $\div 0.9(=50)$ |  |
|  |  | A1 | cao |  |
| (b) <br> (c) | 0.3 | B1 | for 0.3 oe | Acceptable equivalents are $3 / 10$ or $30 \%$ Answer on answer line takes precedence <br> Do not accept a statement of probability (eg 0.1) |
|  | 4 | B1 | 4 or ft their (a) |  |
|  | 12 | M1 <br> A1 | for $0.2 \times 60$ oe cao | Do not accept the use of any other probability |
|  |  |  |  |  |

| Paper: 1MA1/3F |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Question | Answer | Mark | Mark scheme | Additional guidance |
| 15 | 6 | P1 | for listing the multiples of 3 and 5 to at least the number 15 or $3 \times 5(=15)$ | $3,6,9,12,15 \text { and } 5,10,15$ <br> If in a list of multiples of 3 and 5, multiples of 15 must be clearly identified <br> Sight of $6.6(\ldots)$ or $6 \frac{2}{3}$ oe or an answer of 7 gets 2 marks. |
|  |  | P1 | for considering multiples of 15 , eg 4 multiples of 15 identified or $100 \div 15(=6.6$..) or an answer of 7 |  |
|  |  | A1 | cao |  |
| 16 | 30:1 | M1 | for stating 450: 15 oe or $450 \div 15(=30)$ oe or $1: 30$ | 90:3 |
|  |  | A1 |  | Ignore units throughout. |
| $17 \quad$ (a) | Full working seen | M1 | for an initial step with the expressions eg doubling $2 x+1$ or $x+2$ or halving $4 x$ or for identifying $C D$ as $x+2$ or for identifying $D E$ as $2 x+1$ | May be seen in working or on diagram |
|  |  | M1 | for an expression for the total perimeter, eg $4 x+2 \times(2 x+1)+2 \times(x+2)$ |  |
|  |  | C1 | for full simplification and equating to 18 |  |
|  | 1.2 | M1 | for isolating terms in $x$ can ft an equation stated in (a) provided in form $a x+b=c$ | $10 x=18-6$ |
|  |  | A1 | for 1.2 oe | $\text { Accept } \frac{12}{10} \text { or } \frac{6}{5}$ |

| Paper: 1MA1/3F |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Question | Answer | Mark | Mark scheme | Additional guidance |
| 18 | 1204 | P2 | for a full process to find $120 \%$ of 14200 eg, $1.2 \times 14200(=17040)$ or $(0.2 \times 14200)+14200(=17040)$ | [cost] must be greater than 14200 |
|  |  | (P1 | for process to find $20 \%$ of $14200 \mathrm{eg}, 0.2 \times 14200$ (=2840) oe) |  |
|  |  | P1 | for [cost] - 5000 |  |
|  |  | A1 | cao |  |
|  |  |  | SCB1 for answer of 920 if P0 scored |  |
| 19 (a) | Inequality shown | B2 | for fully correct solution with all three aspects with no ambiguity <br> Aspect 1: circle at 4 <br> Aspect 2: circle not shaded <br> Aspect 3: arrow pointing left or line extending beyond -5 , starting from their circle | Circling the number 4 alone scores B0 Aspect 1 and Aspect 2 must relate to the same circle. |
|  |  | (B1 | for any two aspects) |  |
|  | 4,5,6,7 | B2 | for all four numbers in any order |  |
|  |  | (B1 | for 2 or 3 correct values with no errors or 4 correct values with one extra) |  |
|  | $x \geq 6$ | M1 | for a correct intention to subtract 5 from both sides or a correct intention to subtract $x$ from both sides | Can work with an equation for both M marks |
|  |  | M1 | for a full method to solve the inequality or showing a critical value of 6 | Award 2 marks for an answer of $x ? 6$ where ? is an = or any incorrect inequality symbol, or for an answer shown as just 6 . |
|  |  | A1 | cao |  |

| Paper: 1MA1/3F |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Question | Answer | Mark | Mark scheme | Additional guidance |
| 20 (a) <br> (b) | $\begin{gathered} 7360 \\ 0.1077981356 \end{gathered}$ | B1 <br> B2 <br> (B1 | ```cao for \(0.1077(981 \ldots)\) for 5.74(45626...) or 53.29 or 0.11 or 0.107 or 0.108 )``` | Answer must be given to at least 4 decimal places rounded or truncated Accept a clear indication of the decimal point. Check first four decimal places only |
| 21 | 260 to 260.5 | M1 <br> M1 <br> A1 | for $883-245(=638)$ <br> or $883 \div 245(=3.60$..) <br> or $883 \div 245 \times 100(=360(.408 .)$.$) oe$ <br> for a complete method to find the percentage increase eg " 638 " $\div 245 \times 100(=260(.408$.. $)$ ) or $883 \div 245 \times 100-100(=260(.408 .)$.$) oe$ <br> Accept answers in the range 260 to 260.5 |  |

| Paper: 1MA1/3F |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Question | Answer | Mark | Mark scheme | Additional guidance |
| 22 (a) | $2,-4,2,8$ | B2 | all 4 values correct |  |
|  |  | (B1 | for 2 or 3 correct values) |  |
| (b) | Graph | M1 | (dep B1) for at least 5 points plotted correctly ft from part a |  |
|  |  | A1 | for a fully correct curve drawn | Accept freehand curves drawn that are not line segments; there must be some attempt to draw the minimum point below $y=-4$. |
| (c) | -2.6 or 1.6 | B1 | for 1 correct value, ft a non linear graph | Award for -2.6 or 1.6 or both values but do not award the mark if a correct value is given with an incorrect value. <br> Accept 1.56 or -2.56 <br> Note for ft to be applied the graph may be joined by line segments. |

| Paper: 1MA1/3F |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Question | Answer | Mark | Mark scheme | Additional guidance |
| 23 (a) | 5 | M1 | $" 2 " \div 40 \times 100$ | " 2 " comes from their reading of the height of the 20 to 24 column |
|  |  | A1 | cao |  |
|  | 9.5 shown | M1 | for frequencies of $11,8,13,6$ and 2 (allow one error) or for midpoints $2,7,12,17$ and 22 | May be seen on chart |
|  |  | M1 | for finding at least 4 products $f x$ consistently within interval (including end points) |  |
|  |  | M1 | $\begin{aligned} & \text { for } \Sigma " f x " \div(" 11 "+" 8 "+" 13 "+" 6 "+" 2 ") \\ & \text { or }(11 \times 2+8 \times 7+13 \times 12+6 \times 17+2 \times 22) \div 40 \\ & \text { OR } \\ & \Sigma " f x "(=380) \text { and } 9.5 \times(" 11 "+" 8 "+" 13 "+" 6 "+" 2 ") \\ & (=380) \end{aligned}$ | Evidence of two different calculations that should lead to 380 are required for this mark |
|  |  | C1 | for correct figures showing the answer or accurate figures to compare from correct working eg 380 from two calculations |  |

| Paper: 1MA1/3F |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Question | Answer | Mark | Mark scheme | Additional guidance |
| 25 | 17.3 | P1 | for full process to find either angle eg $(180-90) \div(2+3) \times 2$ or for 36 or 54 seen as an angle | May be seen on diagram Condone correct values if incorrectly placed. |
|  |  | P1 | for a correct equation using trigonometry eg cos $[A]=14 \div A B$ | This must be shown as an equation with all four elements (eg cos, $[A], 14, A B$ ) present. <br> [ $A$ ] could be 36 or any angle clearly and unambiguously identified as $A$. This also applies to $[B]$ with Sine. |
|  |  | P1 | (dep previous P mark) for rearranging their trigonometry equation to make $A B$ the subject $\operatorname{eg}(A B=) " 14 \div \cos 36 "$ |  |
|  |  | A1 | for an answer in the range 17.3 to 17.4 | If an answer is shown in the range in working and then incorrectly rounded award full marks. |
| 26 | $6 n-1$ | M1 | for $6 n+k$, where $k \neq-1$ or missing | Accept a different variable for M1 only |
|  |  | A1 | oe | Note $n=6 n-1$ gets M1 only |

## Modifications to the mark scheme for Modified Large Print (MLP) papers. Paper 3F.

Only mark scheme amendments are shown where the enlargement or modification of the paper requires a change in the mark scheme.

The following tolerances should be accepted on marking MLP papers, unless otherwise stated below:
Angles: $\pm 5$ 응
Measurements of length: $\pm 5 \mathrm{~mm}$

| PAPER: 1MA1_3F |  |  |  |  |
| :---: | :--- | :--- | :--- | :--- |
| Question |  |  | Modification | Mark scheme notes |
| 1 |  | Boxes removed | Standard mark scheme |  |
| 5 |  | Diagram enlarged. Model provided for all candidates. | Standard mark scheme |  |
| 6 | (a) | Diagram enlarged. Numbers moved above the scale. | Standard mark scheme |  |
| 9 |  | Diagram enlarged. Labels added above the shapes. V and K versions - 5 cut out shapes provided. <br> Wording changed from 'The diagram shows five shapes on a centimetre grid.' <br> to 'It shows five shapes on a grid of squares.' | Standard mark scheme |  |
| 10 |  | Diagram enlarged. Mirror line labelled on the left-hand side of the grid. <br> Shading changed to dotty shading. Cut out shape provided for all candidates. <br> Wording added 'You do not need to shade your shape.' | Standard mark scheme |  |

| PAPER: 1MA1_3F |  |  |  |
| :---: | :---: | :---: | :---: |
| Question |  | Modification | Mark scheme notes |
| 12 |  | Diagram enlarged. $10^{\circ}$ markings added to the pie chart and a dot at the centre. Question wording changed from 60 people to 90 people. <br> Frequencies changed as follows: Peas 40, Carrots 20, Mushrooms 30. | Amended mark scheme: <br> M1 for method to find at least one angle eg P: $360 \div 90 \times 40(=160)$ or C: $360 \div 90$ $\times 20(=80)$ or $360 \div 90 \times 30(=120)$ <br> M1 for all 3 angles correctly calculated OR at least one accurately drawn angle <br> A1 fully correct pie chart with labels |
| 14 |  | Diagram enlarged. Spike removed and dot added. Table turned to vertical format. | Standard mark scheme |
| 17 |  | Diagram enlarged. Wording 'A B C D E' added after pentagon. MLP only $-x$ changed to $y$. Wording added 'Right angles are marked at A and E.' $A B$ labelled $2 y+1, B C$ labelled $y+2, A E$ labelled $4 y$ | Standard mark scheme |
| 19 | (a) | Diagram enlarged. | Standard mark scheme |
| 19 | (c) | MLP only - $x$ changed to $p$. | Standard mark scheme with $x$ changed to p |
| 22 |  | Wording added 'There are four spaces to fill.' Table turned to vertical format. Grid enlarged. Y axis changed to go up in units of 2 from -10 to 10 . | Standard mark scheme |
| 23 |  | Diagram enlarged. Right axis labelled. Shading changed to dotty shading. Axes labels moved to the left of the horizontal axis and above the vertical axis. | Standard mark scheme |
| 25 |  | Diagram enlarged. | Standard mark scheme |
