1. Introduction

The Standards and Testing Agency (STA) is responsible for the development and delivery of statutory tests and assessments. STA is an executive agency of the Department for Education.

The 2019 test assesses the current national curriculum, which was updated in 2014. This test has been developed to meet the specification set out in the [test framework](#)¹ for English reading at key stage 1. It assesses the aspects of comprehension that lend themselves to a paper test.

A new test and new mark schemes are produced each year.

The key stage 1 test will be marked in schools to inform teacher assessment.

Scaled score conversion tables are not included in this document. Conversion tables are produced as part of the standards maintenance process. [Scaled score conversion tables](#)² for the 2019 tests will be published in June 2019.

The mark schemes are provided to use when marking pupils' responses. The pupil examples are based on responses gathered during the test trialling process. It is important when marking to refer to the general marking principles, the additional guidance and the exemplars section to ensure marking is accurate and consistent.

2. Structure of the test

The key stage 1 English reading test comprises:

- Paper 1 – a combined booklet that integrates the reading texts and answer booklet (lower demand), which carries 20 marks
- Paper 2 – a reading booklet with a separate answer booklet (higher demand), which carries 20 marks.

3. Content domain coverage

The 2019 test meets the specification in the test framework. Tables 1 and 2 set out the areas of the content domain that are assessed in Papers 1 and 2.

Some questions assess more than one area of the content domain. Any secondary content domain references are indicated in the mark schemes.

4. Explanation of the mark schemes

Those marking the test should familiarise themselves with the marking guidance in section 4.1 of this document before applying the mark schemes.

The number of marks available for each item is indicated below the marking circles on the test papers. All questions in Paper 1 are worth 1 mark and questions in Paper 2 are worth either 1 or 2 marks. Incorrect or unacceptable answers are given a mark of 0. No half marks are awarded.

The practice questions are not marked as they are completed by the pupils together with the test administrator as an introduction to the test.

The mark schemes contain the following information for each question:

- the question number
- the question from the test paper
- the number of marks available for each question
- what is required to answer each question – including correct answer(s) and examples of different types of creditworthy response
- any additional guidance that may be relevant, including unacceptable responses, where appropriate
- the content domain reference and, if applicable, the secondary content domain reference.

The diagram below exemplifies the content of the mark schemes:

4.1 Applying the mark schemes

The table below explains the key features of the key stage 1 English reading test mark schemes:

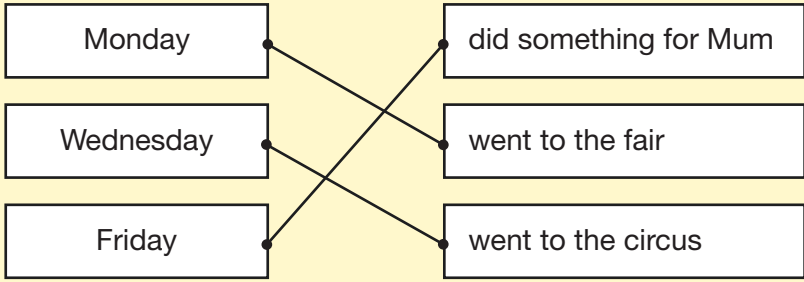

Mark scheme	Explanation
<ul style="list-style-type: none"> ■ Square bullets 	Square bullets indicate acceptable points that can be credited in a pupil's response. They must be treated as marking principles, not as the exact response a pupil needs to give.
<ul style="list-style-type: none"> • Round bullets 	Round bullets indicate examples of frequently occurring responses given by pupils during trialling. There are many ways for pupils to express an acceptable answer. Those marking the test must focus on the content of what has been written and not on the quality, expression or grammatical construction of the response.
Use of brackets in acceptable points	Brackets provide additional information that is relevant to the required response, but is not required for the award of the mark.
Do not accept	Do not accept indicates commonly occurring but incorrect answers that should not be credited.
Possible ambiguity	Pupils who write a correct and an incorrect answer should be awarded for the correct answer. This principle must be carefully applied in conjunction with the mark scheme for each question.
'Find and copy' questions	For 'find and copy' questions, introductions such as 'the answer is (...)' / 'it is (...)' and plausible misspellings are permitted.
Use of brackets in 'find and copy'	For 'find and copy' questions, the correct answer is indicated by the word(s) outside the brackets. The word(s) inside the brackets indicate any additional word(s) allowable for the award of the mark. The words inside the brackets are not creditworthy if given alone.
Minor copying errors / plausible misspellings	Minor copying errors and plausible misspellings are permitted in responses to all questions.
Tick boxes and tables	Accept any clear indication of the correct response, including crosses, underlining and circling answers.
Drawing lines to 'match' boxes	Accept lines that do not touch the boxes, providing the intention is clear.
Circling / underlining	Accept any clear indication of the correct response, including ticks, underlining and circling answers.

5. Internal moderation procedures

We recommend those who are involved in marking the key stage 1 tests should undertake moderation activity to ensure marking is consistent across their school.
