MATHEMATICS – NUMERACY UNIT 1: NON-CALCULATOR FOUNDATION TIER

TUESDAY, 6 NOVEMBER 2018 – MORNING

1 hour 30 minutes

ADDITIONAL MATERIALS

The use of a calculator is not permitted in this examination. A ruler, a protractor and a pair of compasses may be required.

INSTRUCTIONS TO CANDIDATES

Use black ink or black ball-point pen. Do not use gel pen or correction fluid.

You may use a pencil for graphs and diagrams only.

Write your name, centre number and candidate number in the spaces at the top of this page.

Answer all the questions in the spaces provided.

If you run out of space, use the continuation page at the back of the booklet. Question numbers must be given for the work written on the continuation page.

Take π as 3.14.

INFORMATION FOR CANDIDATES

You should give details of your method of solution when appropriate.

Unless stated, diagrams are not drawn to scale.

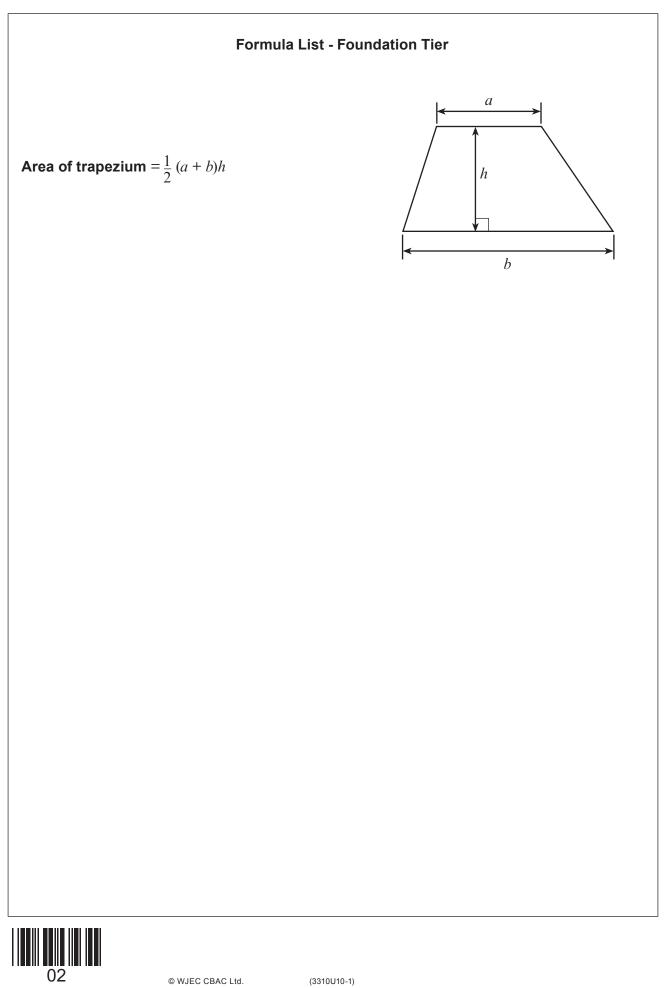

Scale drawing solutions will not be acceptable where you are asked to calculate.

The number of marks is given in brackets at the end of each question or part-question.

In question 3(a), the assessment will take into account the quality of your linguistic and mathematical organisation, communication and accuracy in writing.

Key:

MP	number of Matches Played
W	number of matches Won
D	number of matches Drawn
L	number of matches Lost
GF	Goals For (number of goals the team has scored)
GA	Goals Against (number of goals scored against the team)
GD	Goal Difference (number of goals the team has scored minus the number of goals scored against the team)
PTS	total number of Points gained

Use the information on the opposite page to answer the following questions.

(a) Circle either TRUE or FALSE for each of the following statements.

TRUE FALSE Watford has the most goals scored against them. FALSE Chelsea scored the most goals. TRUE Bournemouth has double the points of TRUE FALSE Middlesbrough. The GD for Chelsea is 92 more than the GD for TRUE FALSE Sunderland. What was the modal number of matches won? (b) [1] What is the range of the total number of points gained? (C) [2] Which of the following is the rule to find the value of GD? (d) Circle your answer. [1] GD = GF + GA GD = GF – GA GD = GA - GFGD = GF × GA $GD = GA \div GF$
