

# Fractions

1. Write 5 equivalent fractions of these fractions:

$$2/3 = \underline{\hspace{10cm}}$$

$$\frac{3}{4} = \underline{\hspace{10cm}}$$

2. From the above question, write the fraction which has common denominators:

$$4/5$$

$\frac{3}{4}$  \_\_\_\_\_

4. From the above question, write the fraction which has the same denominator.

Which fraction is more ( $>$ ) or less than ( $<$ ) which:

5.  $\frac{1}{3}$    $\frac{1}{2}$

6.  $\frac{1}{9}$    $\frac{1}{3}$

7.  $\frac{1}{4}$    $\frac{1}{5}$

8.  $\frac{1}{7}$    $\frac{1}{6}$

9.  $\frac{1}{4}$    $\frac{2}{6}$

10.  $\frac{2}{5}$    $\frac{4}{9}$

11.  $\frac{1}{3}$    $\frac{3}{10}$

12.  $\frac{2}{8}$    $\frac{3}{10}$

13.  $\frac{2}{9}$    $\frac{1}{7}$

14.  $\frac{4}{5}$    $\frac{3}{4}$
