

Multiplication and Division by Standard numbers

Exercise

Multiply the following number by 10, 100 and 1000

X	10	100	1000
1) 2.255			
2) 0.7455			
3) 458			
4) 0.36587			
5) 14558			

Divide the following numbers by 10, 100, and 1000

- 6) 254 _____ , _____ , _____
- 7) 3.254 _____ , _____ , _____
- 8) 12.251 _____ , _____ , _____
- 9) 0.25451 _____ , _____ , _____
- 10) 47558 _____ , _____ , _____

Convert the following fractions into decimals.

11) $\frac{2}{5}$

= _____

12) $2\frac{1}{2}$

= _____

13) $3\frac{3}{25}$

= _____

14) $4\frac{3}{5}$

= _____

15) $12\frac{7}{20}$

= _____

Convert the following decimal into fraction and reduce into lowest term.

16) 0.25 = _____

17) 0.0001 = _____

18) 3.75 = _____

19) 14.36 = _____

20) 2.4256 = _____
